Premium Intraocular Lens will be the topic for
South Lake Hospital's December Health & Wellness Series

***Clermont, Fla.* –**Premium Intraocular Lens (Toric Lens & Multifocal Lens) and why "I need them?" will be the topic for South Lake Hospital's December Health & Wellness Series on Monday, December 13, 2010 from 6:00 p.m. to 7:00 p.m. at the National Training Center. The program will be presented by Mayssa Toppino, M.D., Board Certified Ophthalmologist.

Premium intraocular lens implants for cataract surgery and clear lens extraction can reduce or eliminate the need for eyeglasses and contact lenses. There are many options for patients to consider today when it comes to the refractive (need for eyeglass) results of their cataract surgery or refractive clear lens exchange. Implants today can correct vision for multiple ranges; distance, intermediate, and near, instead of only one range. They can also correct astigmism, reducing the need for glasses.

The event is open to the public at no cost. For more information and to register, please call 352.394.4071, extension 4412. The National Training Center, part of South Lake Hospital, is located at 1935 Don Wickham Drive, in Clermont on the hospital campus.

South Lake Hospital is a not-for-profit acute care community hospital, in partnership with Orlando Health. South Lake Hospital has been providing quality healthcare services to the South Lake County for over 60 years. For additional information about South Lake Hospital visit www.southlakehospital.com.
