Overactive Bladder & Urinary Leakage in Women will be the topic for South Lake Hospital's December Health & Wellness Series

Clermont, Fla. – Overactive Bladder & Urinary Leakage in Women will be the topic for South Lake Hospital's December Health & Wellness Series on Tuesday, December 13, 2011 from 6:00 p.m. to 7:00 p.m. at the National Training Center. The program will be presented by Kenneth Essig, M.D., Board Certified Urologist.

Nearly 3 million women in the US suffer from overactive bladder and urinary leakage. For many women, the risk of public embarrassment keeps them from enjoying activities with family and friends. Today there are many new treatment options for these conditions that allow women freedom from overactive bladders. Come learn about the new options.

The event is open to the public at no cost. For more information and to register, please call 352.394.4071, extension 4412. The National Training Center, part of South Lake Hospital, is located at 1935 Don Wickham Drive, in Clermont on the hospital campus.

South Lake Hospital is a not-for-profit acute care community hospital, in partnership with Orlando Health. South Lake Hospital has been providing quality healthcare services to the South Lake County for over 60 years. For additional information about South Lake Hospital visit www.southlakehospital.com.
