Common Illnesses in Children and Pediatric Vaccinations will be the topic for
South Lake Hospital's July Health & Wellness Series

Clermont, Fla. –Common Illnesses in Children and Pediatric Vaccinations will be the topic for South Lake Hospital's July Health & Wellness Series on Monday, July 12, from 6:00 p.m. to 7:00 p.m. at the National Training Center. The program will be presented by Angeles Otero, M.D., board certified Pediatrician.

Over the course of their lives, children receive vaccines for up to 15 different illnesses. This discussion will review the purpose for each of these vaccines and the different illnesses they help to prevent. The second part of the discussion will focus on the most common infections in school-aged children such as strep, 5th disease, roseola, MRSA. What are the signs and symptoms, how they are transmitted and what if any are the current treatment recommendations?

The event is open to the public at no cost. For more information and to register, please call 352.394.4071, extension 4412. The National Training Center, part of South Lake Hospital, is located at 1935 Don Wickham Drive, in Clermont on the hospital campus.

South Lake Hospital is a not-for-profit acute care community hospital, in partnership with Orlando Health. South Lake Hospital has been providing quality healthcare services to the South Lake County for over 60 years. For additional information about South Lake Hospital visit www.southlakehospital.com.
