Radiation- New Horizons will be the topic for
South Lake Hospital's May Health & Wellness Series

Clermont, Fla. –Radiation therapy for cancer patients will be the topic for South Lake Hospital's May Health & Wellness Series on Monday, May 17, 2010, from 6:00 p.m. to 7:00 p.m. at the National Training Center. The program will be presented by David Graham, M.D., board certified Radiation Oncologist.

When cancer is diagnosed it may be treated in a variety of ways, depending on the nature and complexity of the illness. Radiation therapy is one of the ways to combat certain types of cancer. The goal of radiation therapy is to deliver a high enough dose of radiation into the tumor to kill cancer cells while sparing the surrounding normal tissue from damage. Come learn if radiation therapy is an option for you or a loved one.

The event is open to the public at no cost. For more information and to register, please call 352.394.4071, extension 4412. The National Training Center, part of South Lake Hospital, is located at 1935 Don Wickham Drive, in Clermont on the hospital campus.

South Lake Hospital is a not-for-profit acute care community hospital, in partnership with Orlando Health. South Lake Hospital has been providing quality healthcare services to the South Lake County for over 60 years. For additional information about South Lake Hospital visit www.southlakehospital.com.
