**Minimal Invasive Procedures in Plastic Surgery will be the topic  
for South Lake Hospital's October Health & Wellness Series**

**Clermont, Fla.** – Minimal Invasive Procedures in Plastic Surgery will be the educational topic of South Lake Hospital's October Health and Wellness Series being held at the National Training Center on Wednesday, October 28, 2009, from 6:00 p.m. to 7:00 p.m. The educational program will be presented by Fernando Serra, MD, board certified Plastic Surgeon, followed by a short question and answer session.

New minimally invasive techniques allow individuals to choose a specific zone of aging and selectively address those areas. In doing this the individual is able to rejuvenate the part that bothers them the most, avoiding the need for a major surgery, such as a full facelift.

The event is open to the public at no cost. For more information and to register, please call 352.394.4071, extension 4412. The National Training Center, part of South Lake Hospital, is located at 1109 Citrus Tower Blvd. in Clermont on the hospital campus.

South Lake Hospital is a not-for-profit acute care community hospital, in partnership with Orlando Health. South Lake Hospital has been providing quality healthcare services to the South Lake County for over 60 years. For additional information about South Lake Hospital visit [www.southlakehospital.com](http://www.southlakehospital.com).
